# story

In 2017 Marek Bero and Giampaolo Guarnieri formed Punt Guns. A meeting of minds and musical sensibilities that has forged a landscape of electronic rock, electronica and pop with yearning anthems that seek to bring new life to the darkest corners of our existence. Comprising of 2 core members, Marek (Bass and Lead Vocals) and Giampaolo (Guitar and other worldly sounds), Punt Guns have spent the last 2 years creating their first album release set for autumn 2020.

Finding an alliance with producers Andy Wright and Gavin Goldberg (Simple Minds, Jeff Beck ...) they have forged an apocalyptic sci-fi love epic that will find disciples globally.

Additional remixes by Hong Kong based Janette Slack (1.C.A.R.U.S.) and Future Funk Squad's Glen Nichols (B1g Bang) make up the set.

Exclusive visuals graphics by Mighty Duck Emblem creator Esteban Ron have helped create the look and feel of Punt Guns.

Punt Guns live set will include Gaet Allard on drums and Jiri Novotny on guitar and keyboards.
